

Tank for liquid fertilizers

## SWIMER AGRO TANK 22000

WITH THE LIPREMOS® SONIC PRO SYSTEM

inspection hatch  
704 mm

discharge pipe  
with 2" STORZ  
coupling

air vent

bottom drain with  
ball valve with  
2" STORZ coupling

LIPREMOS®  
SONIC PRO  
system

**LIPREMOS®**  
S O N I C

Available capacities of SWIMER AGRO TANK: 22000, 20000, 15000,  
12500, 10000, 7500, 5000, 3500, 2500, 1500 liters.

## MONITORING SYSTEM AND ANALYSIS OF TANK STOCK

Precise measurement of liquid level and temperature

- The most accurate device in its class!
- The sensor measures the temperature directly in the liquid
- Readings are sent to an application (web/mobile)
- Possibility to connect a screen, which allows the reading of measured parameters directly on the tank (option)
- No power supply is required (battery power)
- Possibility to install a parametric leak sensor (optional)
- Possibility to indicate the volume at the reference temperature of 15°C  
- applicable to diesel tanks (option)

# SWIMER AGRO TANK 22 000 is best suited for all-tank deliveries!

One SWIMER AGRO TANK with a capacity of 22000 L will hold the contents of one TANKER containing 25 tons of liquid fertilizer!

# LIPREMOS<sup>®</sup>

### MONITORING SYSTEM AND ANALYSIS OF TANK STOCK

Choose the best solution for your business!

#### LIPREMOS SONIC PRO GPRS/GNSS + WEB application

- battery-powered (easy battery replacement)
- data in the cloud (WEB application and mobile application)
- measurement with accuracy up to 2 mm
- monitoring of tanks up to 12 m high
- accurate location of the tank (GNSS)
- thermometer measuring the temperature of the liquid
- equipped with accelerometer - protects against tampering, facilitates correct installation ensuring accuracy of measurements
- **the only effective anti-theft alarm on the market**
- possibility of connecting a parametric leak sensor

#### LIPREMOS SONIC PRO RS232/RS485

- possibility to connect PLI-100L controller (LCD display)
- power supply 230V
- works up to 4 channels
- thermometer measuring the temperature of the liquid
- measurement with accuracy up to 2 mm
- monitoring of tanks up to 12 m high
- equipped with accelerometer - protects against tampering, facilitates correct installation ensuring accuracy of measurements
- **the only effective anti-theft alarm on the market**
- possibility of connecting a parametric leak sensor

#### LIPREMOS SONIC PRO ISM

- battery-powered (easy battery replacement)
- **one receiver with LCD display supporting up to 16 channels**
- communication with the receiver up to 1000m in open space
- monitoring of tanks up to 12 m high
- thermometer measuring the temperature of the liquid
- measurement with accuracy up to 2 mm
- equipped with accelerometer - protects against tampering, facilitates correct installation ensuring accuracy of measurements
- **the only effective anti-theft alarm on the market**
- possibility of connecting a parametric leak sensor
